

Outdoor Power Equipment

When You're Balancing Sales, Service and Rentals, Who Has Your Back?

If you own an Outdoor Power Equipment business, you're dealing with the big items behind the scenes of mega-projects and the infrastructure of modern society.

Tractors. Combines. Bulldozers. Cranes. Packers. Pumps. Chainsaws. Air compressors.

These are the things people take for granted. But in fact, it's your business that helps provide the essentials.

Roads. Oil. Food. Lumber. Economic Growth.

You know that your work matters. And you work hard. But who can you count on for support?

Windward Software. Because we created one of the **best Integrated Business Management Software solutions** on the market today for businesses that sell, service and rent the behind-the-scenes equipment our society depends upon.

We've been helping Outdoor Power Equipment business owners run and grow their businesses since 1984.

If you're ready to work with a Business Management Software that works behind the scenes as hard as you do, then please give us a call today.

We help you run your Outdoor Power Equipment business.

So that you can help your customers get the important things done.

Ask Us How.

Why Choose Windward for Your Outdoor Power Equipment Business?

A Word From Our Clients

1. Streamline with Integrated Software

- » Windward's flagship software, *Windward System Five*, integrates front-end point-of-sale (POS) and purchase ordering with back-end inventory management, customer records, reporting and accounting - all in one database.

2. Seamlessly Manage Sales, Service, Rentals and Repairs

- » Easy POS for rentals and sales; automatically flag add-ons.
- » Kitting, signs, tags, labels, barcodes – all made simple.
- » Track unit service, rental & repair history; send reminders.
- » Easy-to-use floor planning.
- » Mobile Field Application for remote servicing and repairs.

3. Exceptional Inventory Control

- » Supports multiple methods of inventory management.
- » Serialize to track products through the supply chain.
- » Oversee all types of parts across multiple locations: after-market, superseding, OEM and Alternate Suppliers.

4. Expert Custom Development & Customer Support

- » Our Custom Development team is MS Gold Certified.
- » 1:1 implementation & ongoing customer training.
- » Live global support, 24 hours, 7 days per week.

"Our business has grown so much that without Windward System Five, we simply could not function effectively. The software has become the foundation of our business management."

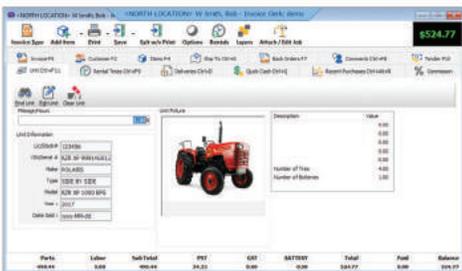

- Robert Hibbert, General Manager
Westcoast Tool Sales & Service Ltd.
Vancouver, BC

"Windward System Five settings can be easily adapted to perfectly fit our business practices, instead of the other way around. This solution has the best price-to-value ratio in the market."

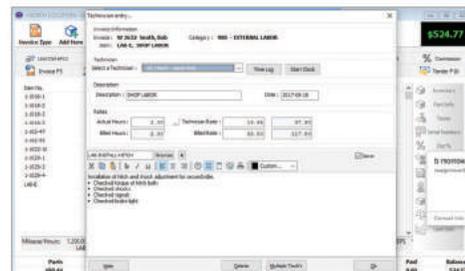

- Jim Pedulla, Owner
Altra Rental & Supply
Ontario, NY

"Windward's custom development provided us with the opportunity to get exactly what we needed out of the software. The team has been fantastic to work with."

- Mike Judson, IT Director
Tyler Rental (Six locations)
AK, WA
