

Lighting Showrooms

Get the Right Product • To the Right Place • At the Right Time

Lighting Showrooms require excellent relationships with suppliers, building contractors and customers; as well as effective systems for coordinating many complicated projects at once – with precisely timed, accurate deliveries.

Windward's flagship software, **Windward System Five**, helps you streamline and automate the day-to-day processes of running your Lighting Showroom.

By integrating front-end Point-of-Sale and Purchase Ordering with back-end Inventory Management, Reporting and Accounting - all in one database - Windward offers one of the best Lighting Showroom solutions on the market today.

- » Customized to run Lighting Showrooms from boutiques to multi-million dollar enterprises.
- » Manage thousands of inventory items over multiple locations, warehouses, distributors, suppliers, and customers both online and offline.
- » Set your showroom up for long term growth, with the security of knowing you have a Business Management Software system in place that can grow with your vision.

Contact us today to discuss how the right software can illuminate your business.

We help you run your Lighting Showroom.

So that you can help your customers light up their lives.

Ask Us How.

Windward Software's web integrations with key industry partners facilitate ordering, websites, online purchasing and more - all seamlessly linked to your Windward database and back-end.

Why Choose Windward for Your Lighting Showroom?

1. Lighting Wish Lists and Special Orders Made Easy

- » Search fixtures by dimensions, colors and wattages.
- » Builders' Wish Lists customized as a kit or template.
- » Homeowner can switch fixtures and pay the difference.
- » Lighting history and records tracked by building, not owner.
- » Automate POS reminders for bulbs, accessories and upsells.

2. Best Purchase Order System on the Market for Lighting Showrooms

- » Easily create P.O.'s and instantly update projects.
- » Reduce shipping costs by automatically tracking minimums.
- » Automatically sort deliveries received.

3. The End of "Year-End" Inventory in your Lighting Showroom

- » Never be behind by integrating inventory into daily business processes.
- » Make business decisions based on up-to-the minute data.

4. Accurate Tagging for Installation and Deliveries

- » Advanced label and tag printing with product photos.
- » Link the right projects, rooms, wires, bulbs, and clients.
- » Mobile access for deliveries and installations.

5. Expert Windward Customer Support

- » 1:1 Implementation support and ongoing training for entire staff.
- » Live global support, 24 hours, 7 days per week.
