

Powersports

Why Should Your Customers Have all the Fun?

You got into the Powersport business because you always preferred toys with engines and living life a little more on the edge than others.

Passion often drives us into a business niche... then reality takes over.

You end up so busy running the business, all you have time to do is watch everyone else bring in their quad or jet ski for service, and head out again for the fun stuff.

While you head to the back office and try to figure out your accounting program. And spend every Christmas on year end. At Windward Software, ***we know it doesn't have to be this way.***

Because we've created one of the best integrated business management software solutions on the market today. And we've been helping Powersport dealerships manage their sales, service and parts efficiently and accurately since 1984.

Point-of-sale, inventory, distribution lines, reporting, accounting, customer and unit service, parts, and repair records are all managed seamlessly on one database.

So you can get time back from running your business, to enjoy your favorite Powersport. And live life a little on the edge again.

We help you run your Powersport dealership efficiently and accurately.

So that you can focus on other things, like getting outside.

Ask Us How.

Why Choose Windward for Your Powersport Dealership?

1. Seamlessly Manage Sales, Service, Repairs & Rentals

- » Easy Point-of-Sale for accessories; automatically flag key add-ons.
- » Kitting, signs, tags, labels, barcodes – all made simple.
- » Track unit service & repair history, automate reminders.
- » Automate reporting for accurate forecasting and ordering.

2. Efficient Parts & Inventory Control

- » Track and manage units across your business using multiple methods.
- » Serialize to track products through the supply chain.
- » Oversee all types of parts (after-market, OEM) across multiple locations.
- » Synchronize in-store transactions with e-commerce initiatives.

3. Expert Customer Support

- » Every purchase includes a 1:1 implementation.
- » 24/7 support, weekly training and Windward Learning Academy online tutorials for your entire staff.
- » From installation to training to troubleshooting, we offer live global support, seven days per week.

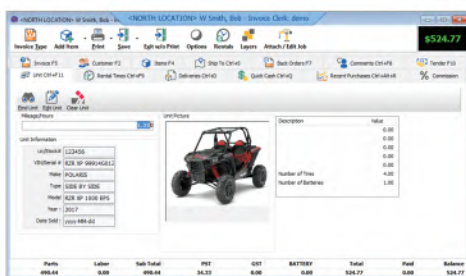

A Word From Our Clients

*"We have been using **Windward System Five** since 1992. The system is incredible at efficiently tracking all of our retail activity and inventory, which consists of tens of thousands of parts. I don't see how we could run our \$5+ million dollar business without Windward Software."*

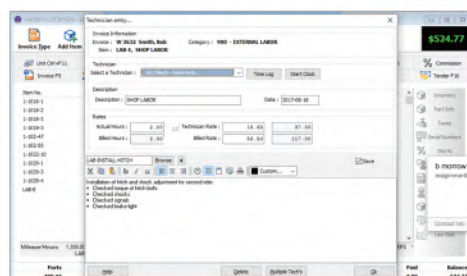

- Cole Haddad
Valley Moto Sport (Two Locations)
West Kelowna & Kelowna, BC

"We love that Windward uses a single database, which means that one transaction triggers related transactions and automatically updates information without any need for duplicate data entry. I should also mention that this was the fastest implementation of sophisticated business management software that I have ever experienced."

- Wes Hardin, Controller
Riverview Marina (Two Locations)
Lewiston & Boise, Idaho
