

Medical Supply & Rental

Simplify a complicated business.

Providing medical supplies and rentals can be a complicated business.

Windward Software's proven flagship software, **Windward System Five**, streamlines the management of your Medical Supply business simply and accurately.

So that you can do what you do best: serving your customers, instead of spending time managing complicated paperwork.

Windward System Five was created with real business owners to solve their unique business challenges; it has evolved to now become the leading business management solution for Medical Supply & Rental enterprises.

We have helped hundreds of Medical Supply businesses operate and expand since 1984.

Are you ready to implement a business management software solution that will elevate your operation to the next level?

Increase your accuracy in:

- » Sales, service, and rentals;
- » Controlling inventory, warehouse management, and accounting;
- » Tracking customers and health records; and
- » Solving complicated specialized medical billing.

Contact us today to discuss your business needs.

We give you the power to efficiently run your Medical Supply & Rental business.

So you can help your customers lead life to its fullest.

Why Choose Windward for Your Medical Supply & Rental Business?

Windward System Five can handle all of the intricacies required to operate a Medical Supply & Rental business.

1. Accurately Track Equipment Rentals

- » Manage inventory items over multiple locations, warehouses, distributors, and suppliers: online and offline.
- » Manage warranty procedures, track service and repairs.
- » Efficiently and accurately manage invoicing and billing.

2. Exceptional Inventory Management

- » Serialize inventory to track product through the supply chain.
- » Manage inventory items over multiple locations, warehouses, distributors, suppliers, online and off-line.

3. Secure Point-of-Sale Integration

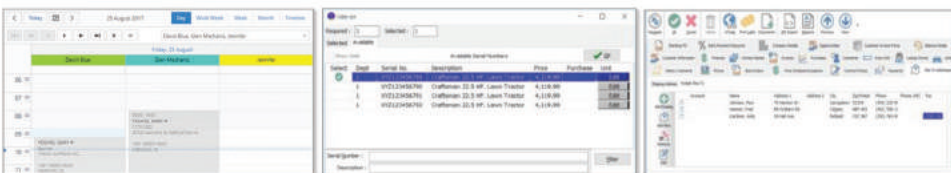

- » Scan ID and medical cards.
- » Track customers, flag problems, and automatically set reminders.

4. Fully Integrated Software with One Database

- » Seamlessly integrate front-end point-of-sale with back-end accounting, sales, service, and rentals.

5. Expert Customer Support

- » 1:1 Implementation & ongoing customer training.
- » Live global technical support, 24 hours, 7 days per week.

A Word From Our Clients

"We sell medical supplies across Western Canada both to the individual end-user and to the health region and hospital authority. It's a very large, very convoluted industry. Windward Software understood and designed a unique component that allowed us to run our business better within our industry."

- Denise Ellis, Vice President
Classic Health
Edmonton, AB

*"Our business has grown so much that without **Windward System Five**, we simply could not function effectively. It has become the foundation of our business management and success."*

- Robert Hibbert, General Manager
West Coast Tool Sales & Service
Windward User Since 2004
